

• THE EARLY ORIENTATION AND DEVELOPMENT
PROGRAM

Zenith Compass

Direction before decisions.

Compass is where the journey begins. It is a lighter, early stage program for students in Grades 8 to 10, built to create direction and momentum long before the demanding application years. Instead of committing to a full application package too soon, families get focused, one to one guidance that helps a student understand who they are, where they are heading, and how to start building a profile they are proud of, whether their future lies abroad or in their home country.

How Compass works

Compass runs at a calm, unhurried rhythm. We recommend one focused, one to one session each month, structured around the decisions and steps that genuinely matter at this stage. There is no pressure and no rush. Each session moves the student a little closer to a clear sense of direction and a stronger profile, so that when the application years arrive, the groundwork is already in place.
